How quickly this happens depends on your goals and your budget. We perform the same processes on each of these premium levels, however the more resources we are able to use to get more links for you, and better links, the faster you will rank for your keywords. Please give us a call if you are interested in any of these packages or a custom quote and we would be happy to speak with you about your particular needs. All starter packages require a \$2,497 one time set-up fee.

We also have advanced custom SEO packages available for the most competitive keywords from \$7,500 -\$25,000/mo. Call to speak to us about your individual needs.

Comprehensive Plan

We spend hours checking out your competition, analyzing exactly what they have done for their marketing, and then develop a comprehensive strategic plan of attack. This provides us with a complete picture of exactly what it will take to achieve the top position for the search engines for your keywords. This process also uncovers the timeline that it will take for you to get on page one, as well as the top 3 positions.

- Keyword Analysis
- Link Analysis
- Competition Analysis
- Competitor's Strategy

Keyword Research

Great keyword research is key to knowing which keywords you should target to give you the best ROI. We then do additional testing using PPC to make sure these keywords truly convert. This provides the best form of insurance for these keywords, and your marketing.

PPC Testing

Pay-Per-Click testing is the best form of insurance you can have to ensure the keywords you target for SEO convert the way you expect. This process saves companies thousands of dollars in wasted time and money for marketing the wrong keywords.

* Additional costs apply, however, we limit this to just a few hundred dollars in most cases.

On-Page Optimization

We have reverse engineered Google and have developed 311 algorithms that ensure a perfect match for what Google and the other search engines are looking for. This usually takes us 5-7 hours for each keyword pair (the keyword and it's plural form).

Build Good Content

Great content on your site is key to getting ranked. Google LOVES great unique content. We help you by building you great unique content each month to give to the search engines (and your customers).

* On-site blogs are a great repository to organize and present your content. If you don't have one of these, we can build one for you for a small fee. Product descriptions can also be enhanced to accomplish the same goal.

Custom Video

1/mo.

1/mo.

1/mo.

Creation of 1 to 3 Minute videos for your business on a regular basis.

Video is rapidly growing in significance on the Web. YouTube is the second largest search engine after Google itself. Creating video can be expensive, but our method uses the data you submit, and your Website to create a short descriptive video that achieves the communication and search engine optimization objectives. Other levels of video quality are available.

Video submission

Video submission to top 10 video portals.

Submission of your video to the major video sites provides increased discoverability for your message. Videos are rated by search engines as higher forms of information and are highly valued as credible sources. The videos are submitted with important ranking factors such as links, keywords and descriptions.
